

Appl. No. 10/065,236  
Amdt. dated December 20, 2004  
Reply to Office action of September 20, 2004

**LISTING OF THE CLAIMS**

1-2. (cancelled)

5

3. (previously presented) A computer backplane comprising:  
a PCI expansion slot disposed on the backplane;  
a first AGP expansion slot disposed on the backplane, in  
alignment with the PCI expansion slot to allow that a  
10 CPU interface card is able to be connected  
simultaneously into both of the PCI slot and the first  
AGP slot; and  
a second AGP expansion slot having an extension of  
electricity of the first AGP slot for receiving an  
15 external AGP interface card therein for electrical  
connection.

4. (original) The computer backplane as described in claim 3,  
wherein the AGP interface card comprises gold fingers for  
20 electrically connecting the AGP interface card to the second  
AGP expansion slot.

5-7. (cancelled)
